

NAME: _____

Fringe Science Project Rubric

- Recognize both the **power and limitations** of science as a way of **answering questions about the world** and explaining natural phenomena.
- Recognize that scientific knowledge is based on evidence, models, and explanations, and **evolves as new evidence** appears and new conceptualizations develop.
- Recognize that science and technology **interact with and advance one another**.

	5	4	3	2	1	0
	<i>Einstein smarts.</i>	<i>Above grade level.</i>	<i>At grade level.</i>	<i>Below grade level.</i>	<i>You should probably have done more homework.</i>	<i>See you next year...</i>
Presentation is engaging -talk to audience -answering questions						
Scientifically accurate information						
Information is clear and simple						
Organization of information -pictures -video -PPT						
Provide science for and against the question.						
TOTAL
